

Dear Principal,

I take this moment to express my heartfelt gratitude for all your contributions towards my success and growth. You have been and done the best for all your students all through your life as a Principal.

You are viewed as an Inspirational Personality by many of your students, not only for the ocean of knowledge vesting in you but as a good-hearted human being up with high values. You have taught us out of the books, how to face the world with confidence in eyes and honesty in heart.

I wish to carry your modesty in life which you have beautifully portrayed all through your years of service. The extra inch of care you have on each student like he or she is your own son or daughter is the one that make you stand a step ahead of all others.

There had been many incidents where I have looked upon you as a hero, especially when you stood against the rank system for which the world around us is fiercely running the grading race. Being a class topper, it took me time to understand the righteousness of your intention behind the act for which I would bow down always.

Your way of approaching right education with quality knowledge and conceptual clarity has brought me to heights now. Chest filled with pride, I would happily tell the world that I have been brought up in the right hands.

A word of thanks is not really enough for all your efforts and sacrifices as a Principal. All that I could return back as a token of gratitude is to spread the knowledge that I have acquired from you and lighten up the world with the weapon of right education.

Thank you.

With Great Respects,

Your Student.
