

Dear Mother,

A THANKS doesn't begin to describe the grateful emotion I feel towards you dear mother. Showing boundless love even before I was born makes your love extra special. You have made your entire life revolve around me, starting from my first footstep, first tears and my first smile.

You have been my teacher, mentor, friend and advisor in all spheres of my life. You act as my guardian angel, protecting me from all kinds of harm. You have nursed me whenever I fell sick, worrying to the core, taking away all the pains. Even my failures are considered as a success of my hard work, in your eyes.

The late night restless sleep you had when I was sick, the hurt in your eyes whenever I was emotionally down prove your unadulterated love for me. Words are not enough to display my gratitude for the all support you have bestowed mother.

Wishing to have your love till eternity.

Yours loving daughter
